M110 Semi-Automatic Sniper System (SASS)

The M110 Semi-Automatic Sniper System (SASS) is an anti-personnel and light anti-materiel weapon that fires 7.62mm ammunition out to a maximum effective range of 800 meters. It leverages a rapid fire/rapid reload design, variable power day optic sight, and 10- or 20-round magazine. The weapon system exceeds the rate-of-fire and lethality of M24 SWS.

The M110 (combat ready with suppressor) weighs 17.3 pounds and includes: detachable folding bipod, enhanced spotting scope (XM151), and a MIL-STD-1913 rail.

Accessories include: hard and soft cases, 10- and 20-round magazines, cleaning/maintenance equipment, and manuals.
